

# Pick Me Up

[SOiL](#)

One thing looking over my shoulder  
Is the thought that it won't last  
I got to give it this, it's moving fast  
Better make a mark before it all pass  
Whoever thought that they had doubts had better think again  
You cannot begin to understand aal the things I am  
That's for sure  
If my world falls to pieces, will you still be there to pick me up?  
I got respect for the people who listen  
To the people who understand  
The way I am and the way I act  
This is my, there's no changing that  
Whoever thought that they had doubts had better think again  
You cannot begin to understand aal the things I am  
That's for sure  
If my world falls to pieces, will you still be there to pick me up?  
Pick up the pieces of me  
Pick up a piece  
If my world falls to pieces, will you still be there to pick me up?
