

Life Is

Andreas Johnson

Should you fall down and be gone
I'd be broken turn to stone
I'd be broken I'd be left without a clue
Everything that's true
So let me sing to you like it is

Life is what you give to me
Life is how you set me free, life is
Life is what you mean to me
Life is how you set me free, life is

Should you leave me fade away
I'd be broken and my days
Would be numbered my life an empty shell
A void no one could fill
That's why I want to tell like it is

Life is what you give to me
Life is how you set me free, life is
Life is what you mean to me
Life is how you set me free, life is

Uhh... life is, life is
Uhh... life is, life is you

I need your life in my life
I need you days in my days
I need your dreams in my nights...

I need you...

Uhh... life is, life is
Uhh... life is, life is

Life is...
