Don't Look Down

Bbmak

You and I were way up high in the dark
Tell me where the light's gonna come from now
Is it you, was it me?
Fallin' out of hope, tightrope
After all baby, you should know not to be the cramp
All the talks by the fork, fallin', love is a high wire act
We've got to get our balance back
And I know we can still do that
If you don't look down
(Don't look down)
Don't fear now
(Don't fear now)
We've already lost our way
The memory of yesterday
Is still strong enough to light the way
Don't look down
(Don't look down)
We can rebound
(We can rebound)
Whatever may lie ahead
Keep your eyes on me now
And baby, don't look down
A starry sky, a lullaby
Is all we need to fortify
What is weakening
Wasn't you, it was me
Running to get out or walk back in
I wanna end all this suffering
I do believe a second chance is coming
Love is a high wire act, got to be an acrobat
And I know you can still be that
If you don't look down
(Don't look down)
Don't fear now
(Don't fear now)
We've already lost our way
The memory of yesterday
Is still strong enough to light the way
Don't look down

(Don't look down)
We can rebound
(We can rebound)
Whatever may lie ahead
Keep your eyes on me now
And baby, don't look down
Don't listen to the crowd
I know the sky is ominous and stormy
(Stormy)
I know it's hard to find your shelter here
Inside you feel it's too far to be falling
(Falling)
But baby, don't your fear
If you don't look down
(Don't look down, you should never look down)
Don't fear now
(Don't fear now, you should never fear now)
We've already lost our way
The memory of yesterday
Is still strong enough to light the way
Don't look down
(Don't look down)
We can rebound
(We can rebound)
Whatever may lie ahead
Keep your eyes on me now
And baby, don't look down
And baby, don't look down
Don't look down, you should never look down
(Don't look down)
Don't fear now, you should never fear now
(Don't fear now)
Don't look down, you should never look down
Don't fear now, you should never fear now
