Melody

Kate Earl

no matter what has ever come to me
i got my own brand of company
i got da da da inside my head
and i play songs back to back until i go to bedwake up by myself inside an empty room
theres no body next to mine to oooh
but my skin is warm and my heart is full
its the do do do do do dowalking waking on a crowded street
with my headphones loud
so my hips can swing, so my head can nod
to the rock and roll to the boom boom beat(chorus)
and i find that im never alone
and i find that my heart is my home
and the music within makes me whole
a world that i built on my own
and i know that im never alone
and i know that my heart is my home
every missing piece of me
i can find in a melodyno matter what has ever come to me
i got my own kind of company
i got ba ba ba inside my head
and i sing songs back to back until i go to bedtheres a river in my mind thats never still
swirling , soothing all the time gives me a thrill
swimming in the notes that go
oh oh oh oh oh oh ohwandering, waking in an empty wood
it is quiet here, i am powerful
i look down below serenade the world
from inside my soul(chorus)(sha-dup, sha-dup)when the walls begin to creep in (aaah, aaah)
(she-bop-she-bop)and the sky is fallin down (aaah, aaaahh)
(she-doop,she-doop)when im swallowed up in feelings
(she-bop, she-bop)i get lost inside the sound...(chorus x 2)
