

# Bedroom Eyes

[Yngwie Malmsteen](#)

Come on baby, what's on your mind?  
You're stumbling in the darkness like you're running blind  
Hey can't you see we've been fooling around  
This same old graveyard on the same playground Be my late night movie star  
By my nature, I can tell who you are?  
Through all lies I see your bedroom eyes  
There's no innocence in your bedroom eyes  
Baby baby got no self-defense, for your bedroom eyes Over and over then we do it again  
I haven't seen a stop sign since I don't know when  
Up and down this lonely street guess I'll see you around  
Is there any way to stop this merry go round You're my late night movie star, yes you are  
By my nature I can tell who you are?  
Through all lies I see your bedroom eyes  
There's no innocence in your bedroom eyes  
Baby baby got no self-defense, for your bedroom eyes
