

Diamond Mind

Jonah Tolchin

Take me to the deep dark well
Yeah take me to the deep dark well
I need my penny back
I got a murder on my trail
A murder on my trail I got a creak in my rocking chair
Yeah a wobble in my easy chair
Looking down the road when I
Forgot I did not care
Lord, forgot I did not care And not too long ago,
I was working for to save my soul
Til I found diamond mind diamond mind
Oh oh til I found diamond mind diamond mind I was looking up at the sky
Again I fell into the sky
Looking for an answer but I found that question why
Did I find that question why So I took my 45
Yeah I took my 45
I found God on the mountain
'Cause bad men have a die
Yeah a bad man have to die And not too long ago,
I was working for to save my soul
Til I found diamond mind diamond mind
Oh oh til I found diamond mind diamond mind I rambled til I sung
I rambled til I sung
My one and only darling
As she lay loose my jaw
As she lay loose my jaw I gave that gal a ring
I gave that gal a ring
I did not have no money so I made it out of string
I made it out of string
I made it out of string
I made it out of string
