Ablaze

Ben Walther

By his grace we are conceived
To be mercy to be peace
to be light amidst the darkness
In His image we are made
To be brilliant, to be great
to present the world his likeness

Let's set the world on fire, let's raise his banner higher
Let's set a broken world ablaze. Woah-oh
Let's hear a generation, proclaiming his salvation
With every breath and endless praise
And set the world ablaze

All the flame but not consumed
We are burning with the truth
For His presence makes us Holy
A faning flicker in to thin
'till His Love is what remains
For to Him belongs our Glory

Let's set the world on fire, let's raise his banner higher
Let's set a broken world ablaze. Woah-oh
Let's hear a generation, proclaiming his salvation
With every breath and endless praise

And set the world ablaze (x3)

Let's set the world on fire, let's raise his banner higher
Let's set a broken world ablaze. Woah-oh
Let's hear a generation, proclaiming his salvation
With every breath and endless praise

And set the world ablaze (x2)
