Take It Home

Lightning Dust

Come on, baby, take it home
People are starting to stare
And they're turning on all of the lights
We've been putting on a show all night
Boys will be boys
Take it home, take it home
'Cause I can't take anymore
It's your touch, it's your taste
It's your dress on the floor
Take it home, take it home
'Cause I've been waiting all night for you
And this is what I'm gonna do
Ice, ice, melt your heart
Baby girl, let down your guard
Rush, rush for that touch
Just one taste can't get enough
Ice, ice, melt your heart
Baby girl, let down your guard
Rush, rush for that touch
Just one taste can't get enough
Take it, take it home
Take it home
Baby, put your key in the door
'Cause this party's getting way too loud
And your neighbors can't take anymore
It's so voyeur, let's give 'em an encore
Boys will be boys
Take it home, take it home
'Cause I can't take anymore
It's your touch, it's your taste
It's your dress on the floor
Take it home, take it home
'Cause I've been waiting all night for you
And this is what I'm gonna do
Ice, ice, melt your heart
Baby girl, let down your guard
Rush, rush for that touch
Just one taste can't get enough
Ice, ice, melt your heart

Baby girl, let down your guard
Rush, rush for that touch
Just one taste can't get enough
Get a room and they say
What's it to them anyway
Over there, anywhere
Doesn't matter 'cause you're here
Ice, ice, melt your heart
Baby girl, let down your guard
Rush, rush for that touch
Just one taste can't get enough
Ice, ice, melt your heart
Baby girl, let down your guard
Rush, rush for that touch
Just one taste can't get enough
Take it home, take it home
'Cause I can't take anymore
It's your touch, it's your taste
It's your dress on the floor
Take it home, take it home
'Cause I've been waiting all night for you
And this is what I'm gonna do
Ice, ice, melt your heart
Baby girl, let down your guard
Rush, rush for that touch
Just one taste can't get enough
Ice, ice, melt your heart
Baby girl, let down your guard
Rush, rush for that touch
Just one taste can't get enough
Just one taste can't get enough
Just one taste can't get enough
Just one taste can't get enough
