

# Proud Youth

## Insted

Growing up is so easy they say.  
But we're staying younger every day.  
For all the kids whose life's unfair.  
Let's join together and show we care.  
Life's in our hands.  
We must begin our fight.  
Youth be strong and let's unite.  
Pressure coming in but we won't fall.  
Cause we're so young and standing tall.  
The future is ours.  
Let's keep it that way.  
Youth is the strength and that's the way it's gonna stay.  
Our values are right.  
Our morals are strong.  
So spread it out and join along.  
For youth...  
Proud youth
