

# Reefer Madness

## Kottonmouth Kings

[Intro]

All my friends are stoners.  
Everyone I know gets high.  
Maybe there's a reason  
Why weed's not legalized.  
(Maybe they're afraid!)

[Verse 1- Johnny Richter]

Why people always be afraid of what they don't know  
Or understand, can't comprehend the info so old?  
The Reefer Madness video is purely propaganda.  
A movie made to scare all of the kids in Alabama.

Maybe they're afraid and think they might lose control instead of embracin' it's many uses, performin' the medical.

It's so pathetic though, that pharmaceutical companies can make you feel from high to low.

It seems it's all about the money, funny cuz

[Chorus]

All my friends are stoners.  
Everyone I know gets high.  
Maybe there's a reason  
Why weed's not legalized.  
(Still not legalized)  
Maybe they're afraid of  
Too much peace and harmony.  
(Peace and harmony)  
Maybe they're afraid of  
Open minds, and people free.  
(Maybe they're afraid!)  
No rest upon my feet  
Until my people freed  
When they turn the Ganja plant  
Into an evil weed.  
(Maybe they're afraid!)

[Verse 2- The Dirtball]

So many friends that I know have suffered the lies of government strangle.  
Into the ground and legally bound and never be angled.  
Even the law-makers makin' the laws are smokin' the bong and deep in' the chronic.  
And nobody hearin' the voice of the weed? I find it ironic.  
So how do we govern the danger of not becoming too hostile?  
Not losin' the mind, not crossin' the line, not feelin' colossal.

There's only one avenue we can be sure that we gettin' our justice.

The legalization of it, the weed, they tryin' ta bust us.

[Chorus]

[Verse 3- Daddy-X]

We've got a black president before weed's legal.

In my mind, in my time, that shit's unbelievable.

I love Obama, I love ALL people.

I just can't believe that a plant's not legal.

A plant, a seed, that grows in the soil

And they still fightin' bloody wars over oil?

Reefer Madness is used as propaganda.

Fear is a tool that they use to command us.

So understand us: we don't fear no plant (x2)

[Chorus]
