

# Rain

## Case

The sun gone down and I'm all alone  
Raindrops fall on my window pane  
I'm waiting here for you to call  
So we can be alone in the rain, so  
Let it rain on me, come down on me  
Come inside and make me feel right  
Let it rain on me, come down on me  
Let's get wet together tonight  
Here we are and you look so fine  
You can't wait to feel me inside  
And I hope it's no mistake  
And in the morning when I wake  
That the storm that made us one passes by, so  
Let it rain on me, come down on me  
Come inside and make me feel right  
Let it rain on me, come down on me  
Let's get wet together tonight  
Oh, I just need to feel a part of you  
And you give me your love that's all I need, I need girl  
Yeah, that's all I need  
To make my night complete  
And no one can do you like me  
So let it rain on me  
Let it rain on me, come down on me  
Come inside and make me feel right  
Let it rain on me, come down on me  
Let's get wet together, tonight  
Let's not waste tonight  
Let's not waste tonight  
Let's not waste tonight  
Let's not waste tonight  
Let's not waste tonight
