Someone Like You

Ub40

There must be some place we can go
There must be someone that you know
Where can I go and who you know worries me, oh Lord
Where can I find someone like you to love?
Where can I find someone like you, my love?
There must be something we may try
There must be some things we may find
What can I try and how to get by worries me, oh Lord
Where can I find someone like you to love?
Where can I find someone like you, oh my love?
There must be some place we can go
There must be someone that you know
Where can I go and who you know worries me, oh Lord
Where can I find someone like you to love?
Where can I find someone like you, oh my love?
Where can I find someone like you to love?
Where can I find someone like you, my love?
Where can I find someone like you to love?
Where can I find someone like you, my love?
