

# Someone Like You

[Ub40](#)

There must be some place we can go  
There must be someone that you know  
Where can I go and who you know worries me, oh Lord  
Where can I find someone like you to love?  
Where can I find someone like you, my love?  
There must be something we may try  
There must be some things we may find  
What can I try and how to get by worries me, oh Lord  
Where can I find someone like you to love?  
Where can I find someone like you, oh my love?  
There must be some place we can go  
There must be someone that you know  
Where can I go and who you know worries me, oh Lord  
Where can I find someone like you to love?  
Where can I find someone like you, oh my love?  
Where can I find someone like you to love?  
Where can I find someone like you, my love?  
Where can I find someone like you to love?  
Where can I find someone like you, my love?
