

# If You Can't Help Your Own

## Hank Williams III

I was raised by myself down in Arkansas  
My family had some rich folks' but they'd never call  
If they wanna be that way, well that's fine with me  
'Cause I ain't got a thing to say to a man filled with greed  
Well, if you can't even help your own  
Well, my friend one day you're gonna be all alone  
Well, I'm real down to earth and I know just how it hurts  
To be in a bind, just tryin' to stay alive  
Well, I can drink and I can cuss and I can be pretty doggone tough  
I like to stay up all night just to see that big sun rise and light up my life  
You better keep your eyes on what's  
goin' on  
With the government today 'cause there doin' us wrong  
They took the farm away from my poor grand dad  
And I never will forgive them for doin' that
