Strike

Vicetone

Gathering in this corner Trying to look discrete We've been talking about this all night long Now it's time to hit the streets Are you ready to rumble? Are you just gonna grumble? You might take a tumble But it's time to rumble This is the reason you keep a dream alive Spread it round the underground The moment will soon arrive Time to strike while the iron is hot No one received a message Nobody has a plan Everybody knows when the time is right To take a righteous stand

Are you ready to rumble? Are you just gonna grumble? You might take a tumble But it's time to rumble You spend a lifetime waiting for a sign Alert the press and place your bets The planets will soon align Time to strike while the iron is hot Time to strike Strike while the iron is hot Strike while the iron is hot
