

# Come and Join Us

## Petra

We are like stones built together in a wall  
Made up of whosoever the Master Builder calls  
We are not worthy but together we are strong  
Built on the Rock of Ages the wall is almost done[Chorus]  
Come and join us in the sunlight  
You've been sittin' in the shade too long  
Come and give us a chance to sing you a song  
Come and join us in the sunlight  
If you would reach you could touch the sky  
Come and drink from the well that will never run dry  
We are like stranger and pilgrims in this world  
Lifting the blood stained banner our flag has been unfurled  
We have a homeland no eyes have ever seen  
But those who've gone before us whose souls have been redeemed[Chorus]  
We are like children held in the  
Father's hand  
Growing into the image of Christ the Son of Man  
We are not perfect but changing every day  
Through trials and tribulation we'll find the perfect way[Chorus]
