Time Machine

Robyn

Hey, what did I do?
Can't believe the fit I just threw
Stupid
Wanted the reactionI remember the words
How I said them, so they would hurt
But then, I regret my actionsIf I could press rewind
Rewind the take, redefine the line
We make mistakes, take it back in time
Just one day, heySo all I need is a time machine
A one way track 'cause
I'm taking it back, taking it back
All I want is a DeLorean
If I could go just like that
I'll be taking it back, taking it backYeah, who's laughing now?
Didn't think you'd actually go
Stupid, me and all my bitchingSecond thoughts and regrets
Gonna alter leading your sets but then
This ain't science fictionIf I could press rewind
Rewind the take, redefine the line
We make mistakes, take it back in time
Just one day, heySo all I need is a time machine
A one way track 'cause
I'm taking it back, taking it back
All I want is a DeLorean
If I could go just like that
I'll be taking it back, taking it backSo all I need is a time machine
A one way track 'cause
I'm taking it back, taking it back
All I want is a DeLorean
If I could go just like that
I'll be taking it back, taking it back
