## The Hurt Process

[Chorus:]

I try to see your point of view

But you twist and exaggerate,

Everything that I say

Just to prove a point Show to me you guarantee

The blind lead the blind

Treading round in circles

Waiting to achieve

Distorted,

Contorted,

Misshapen views that you try to teach me,

But you fall short [Chorus:] I try to see your point of view [2x] I can't imagine the jealousy that you must feel,

When I kiss another girl [Chorus]
