IDLE

Brevis Icekid

I live a life of the simple kind
A lie it only covers
Either way
You do it every other dayGiving love is essential
Whenever we come undone
To believe what you want to
Whenever you come undoneSomeone to love you, somebody to talk to
I wanna be like everybody else
Someone to love you, somebody to talk to
I wanna be like everybody elseSomeone to love you, somebody to talk to
I wanna be like everybody else
Someone to love you, somebody to talk to
I wanna be like everybody elseNobody can hurt me unless I allow them
For it is I, it is I that is in control
Even includes myself, too much and I fall, too much and I fall
That includes myself, man, 'cause you're too idleSomeone to love you, somebody to talk to
I wanna be like everybody else
Someone to love you, somebody to talk to
I wanna be like everybody elseSomeone to love you, somebody to talk to
I wanna be like everybody else
Someone to love you, somebody to talk to
I wanna be like everybody elseYou won't survive just because you're idle
Come, ride with me on a wave that's tidal
Forced to stand down and brave the winter
If you reveal the cracks then you will splinterSomeone to love you, somebody to talk to
I wanna be like everybody else
Someone to love you, somebody to talk to
I wanna be like everybody elseSomeone to love you, somebody to talk to
I wanna be like everybody else
Someone to love you, somebody to talk to
I wanna be like everybody elseSomeone to love you, somebody to talk to
I wanna be like everybody else
Someone to love you, somebody to talk to
I wanna be like everybody elseSomeone to love you, somebody to talk to
I wanna be like everybody else
Someone to love you, somebody to talk to
I wanna be like everybody else
