

Heaven Can Wait (Acoustic)

We the Kings

Here's a song
For the nights
I think too much and
Here's a song
When I imagine us together
Here's a song
For when we talk too much
And I forget my words Heaven can wait up high in the sky
It's you and I
Heaven can wait deep down in your eyes
I'm yours tonight
Lay your heart next to mine
I feel so alive
Tell me you want me to stay forever
'Cause heaven can wait
Here's a song
For the one who stole my heart
And ran so far
That Cupid couldn't catch her
Here's a song
For the kid who aimed so high
He shot her down Heaven can wait up high in the sky
It's you and I
Heaven can wait deep down in your eyes
I'm yours tonight
Lay your heart next to mine
I feel so alive
Tell me you want me to stay forever
'Cause heaven can wait...
Here's a song for the nights
I drink too much and spill my words
...
Heaven can wait up high in the sky
It's you and I
Heaven can wait deep down in your eyes
I'm yours tonight
Lay your heart next to mine
I feel so alive
Tell me you want me to stay forever

'Cause heaven can wait

...

('Cause heaven can wait)

...

'Cause heaven can wait
