

# You Know Me Better Than I Do

**Peter Himmelman**

Well, you know I got a case of the shakes  
So hold me like you used to do  
Tell me that I've got what it takes to make it through Sometimes it just gets so damn hard  
I feel like I could lose my mind  
I'm all torn up and scarred and you're so kind You know me better than I do  
You know me better than I do Well, you know that we could build a fire  
To chase our ugly cares away  
So tell me, do my words inspire you to stay? You know me better than I do  
You know me better than I do 'Cause now what, you know where I'm gonna stay  
And when I talk you know what I'm gonna say The roof is coming down on me  
The rain is falling on my head  
Don't you know I long to be inside your bed Help me sort out this mess  
The one that clutters up my mind  
Darling, I must confess, I'm out of time You know me better than I do  
You know me better than I do  
You know me better than I do  
You know me better than I do You know me better than I do  
You know me better than I do  
You know me better than I do  
You know me better than I do You know me better than I do  
You know me better than I do
