

Bicycle

Royal Canoe

When I knew you,
When I, When I was
Someone who did somethin'
Just because
Echoing your, echoing your, echoing
Echoing your part
Did we know, did we know
We'd get this far? Even when I rode around
You let me ride your bicycle
Met you on a holiday
A stony little place, so
You can never catch me cause
You're slower than an icicle
Wanna know a secret?
You can keep it if you never tell Did we become
Who we, who we are?
Watching them die
In a mason jar
Shufflin' our, shufflin' our, shufflin'
Shufflin' our feet
Did we know, did we know
They weren't asleep? Even when I rode around
You let me ride your bicycle
Met you on a holiday
A stony little place, so
You can never catch me cause
You're slower than an icicle
Wanna know a secret?
You can keep it if you never tell When you pressed
Your lips to mine
I blushed so bright
That I glow, glow
You made me swallow up a butterfly
Now all I want is to catch a can, catch a can
There's a bed sheet billowing
Clipped on with a clothes pin
I'll make you shutter like a camera
When you see me lift a mountain like a ??? Even when I pulled your hair
You let me ride your bicycle

Let you out of holiday
Stony little carousel
Even now I'm catchin' your claws
You're slower than an icicle
Wanna know a secret?
You can keep it if you never tell
