

Let's Not Play The Game

Maxwell

So if this is you
Here's what you should do
Don't even come up
Don't even say stuff
You know it ain't true
Baby what's the use
Let's not play the game
She used to be the dreams I'd dreamed of
The air that I breathe
The words I speak of
But in reality the girl was out for gold, yeah
Honey, honey let's not proceed
If it's because
You're out for cheese
If it's just the
Things associated with me
Girl don't play no roles [Repeat 1]
Let's not play the game
Let's not play the game
Don't get me wrong cause I still believe
Baby, baby I still believe
That love is all that ever was
And love is all that it ever will be
See but it's about honesty so
So let's not play the game
Let's not play the game [Repeat 1]
Let's not play the game
Let's not play the game [Repeat 1]
Let's not play the game
[Repeat 1]
Let's not play the game
Let's not play the game
Let's not play the game
All I ever wanted to give you was a little bit of lovely
Let's not play the game
All I ever wanted to give you was a little bit of happy
Let's not play the game
No but apparently all you really wanted was the money
Let's not play the game
Let's not
Let's not play the game

Let's not play the game
