

Fear of Drowning

British Sea Power

Jesus fucking Christ, oh god no! From the moment that you realize

Most of this Isn't real

To the moment that you decide

Shall we go out tonight

And we'll swim from these island shores

Till there's a fear of drowning

A little old fear of drowning

A little old fear of drowning Oh little England

Tonight I'll swim

From my favorite island shore

And how long has it been

Since you have seen so beautifully

(So beautifully) Ah And all the money in the world

Won't help you now

The only way is down

And you know from way out here

There is a little fear

A little old fear of drowning

A little old fear of drowning

A little old fear of drowning Oh little England

Tonight I'll swim

From my favorite island shore

And how long has it been

How long has it been And how long has it been

Since you have seen so beautifully Oh little England

Tonight I'll swim

From my favorite island shore

And how long has it been

Since you have seen so beautifully
