

So You

NJ Taylor

So YouIntro

You're never ever around boy (repeat 4x)Verse I

Hey boy here's our story
You have to learn about you and me
You've been busy out there
But you're never right here
I just wonder where I stand
I see what you're going through
Let me know if we're one or two
Can't you see in my eyes
I'm dying inside

I'm longing for your touch to free me upChorus

So you, you've been on my mind
So you, keep me up all night
But you, you're never around
And I feel like I'm falling down

You're never ever around boy (repeat 4x)Verse II

So you, you're always on my mind
But you, you're never by my side
You don't send me a text
No missed calls, so what's next
I'm so through with all this stress
Oh baby I'm so confused
You and your lame excuse
Oh but I must confess
We're a beautiful mess

So open up before I'm through with youChorus

So you, you've been on my mind
So you, keep me up all night
But you, you're never around
And I feel like I'm falling down

You're never ever around boy (repeat 4x)Bridge

Time will find its way
Gotta keep it together
Make up your mind
So don't leave me behind
You know this is real

Why you scared? What you need is right hereChorus

So you, you've been on my mind

So you, keep me up all night
But you, you're never around
And I feel like I'm falling down
You're never ever around boy (repeat 8x)
So You (repeat 7x)
