

Inthislife

Dirty Vegas

If this is all I have
If this is all I have
If this is all I have
In this life
In this life

In this life

In this life

An if I could
Then I would
Try and make things better
An I show you
Control you
Be the sunshine
Sunshine on your face
On your face
On your face

I-oh, I-oh

Remember
Surrender

Feel the sunshine on your face
An I show you
An I know you'll be the one I found that meets me there
Meets me there
Meets me there

If this is all I have
If this is all I have
If this is all I have
In this life
In this life

In this life

In this life

An if I could
Then I would
Try and make things better
An I show you
Control you
Be the sunshine
Sunshine on your face
On your face
On your face

If this is all I have
If this is all I have
If this is all I have
In this life

If this is all I have
If this is all I have
If this is all I have
In this life
In this life

La la la la
La la la la
La la la la la la la
La la la la
La la la la
La la la la la la la
In this life

In this life
