

# Isolate

## Moby

I'm sent for elimination  
To where I cannot know, but I'm lost without a chance in hell  
And I'm lost with doubts I can avoid this come feel the fire burn I'll slowly drift away  
A victim of the future my mind and soul decayed Isolate I'm sent for eradication  
By whom I cannot know, but I'm lost without a chance in hell  
I'm the last one out I can't avoid this Exposed to fire but I'll burn another way  
A victim of the future I embrace the tourniquet Isolate Lead us all to pastures green  
To search and learn  
From ones I cannot be Lead us all to harmony  
To search and learn  
The one I cannot be
