Stomp

[Steps](#)

Dance, dance, dance, dance
Dance all night now
We're gonna stomp all night nowThank God for the weekend, now is the time
For feeling alright, come and taste the spice of life
Tonight nothing matters, come and feel the groove
Let it into you, you know what you've gotta doEvery Friday when my work is done now, I get my party on
I call a few friends of mine, make sure I'm looking fine
I know we're gonna have a real good time, yeahEverybody clap your hands, get up and dance
We're gonna stomp all night now
Everybody move your feet, get up and feel the beat
We're gonna stomp all night nowAll I need is the music to get me high, feeling so alive
Leaving all my cares behind
Keep doing your own thing and I'll keep doing mine
Dancing through the night, this is where I feel alrightEvery Friday when my work is done now, I get my party on
I call a few friends of mine, make sure I'm looking fine
I know we're gonna have a real good time, yeahEverybody clap your hands, get up and dance
We're gonna stomp all night now
Everybody move your feet, get up and feel the beat
We're gonna stomp all night nowThank God for the weekend 'cause now is the time
All I need is the music to get me highEverybody, everybody, we're gonna
We're gonna stomp all night nowEverybody clap your hands, get up and dance
We're gonna stomp all night
Everybody we're gonna stomp all night
Everybody and it feels alright
