## Samiam

Old steel factory casting shadows  
What it meant to me no one could know  
Kept him away from me and I was grateful  
And to the bar across the street where he made last callBig man  
Beer can  
Back hand  
My last standLate night  
Fist fight  
Black eye  
Who's rightMinor tragedy family outing  
Major catastrophe, two week vacation  
Long year, seventeen birthday coming  
July 5th, I can leave no more runningOld steel factory casting shadows  
Come July  
Please come July
