Big Red Sun Blues

Johnny Rodriguez

Everything is goin' wrong
It's not right anymore
We can't seem to get along
The way we did beforeSun is hangin' in the sky
Sinkin' low and so am I
Just for the love of someone
And a big red sunHow'm I gonna lose
These big red sun blues
Big red sun big red sun
Big red sun bluesTrue love to hold
Is worth everything
It's worth more than gold
Or any diamond ringBut this little diamond
And a heart that's been broken
Are all I got from you
Big red sunHow'm I gonna lose
These big red sun blues
Big red sun big red sun
Big red sun bluesLook out at that western sky
Out over the open plains
God only knows why
This is all that remainsBut give me one more promise
And another kiss
And I guess the deal's still on
You big red sunHow'm I gonna lose
These big red sun blues
Big red sun big red sun
Big red sun bluesHow'm I gonna lose
These big red sun blues
Big red sun big red sun
Big red sun blues
