I Want Someone Badly

Jeff Buckley

Now I want someone badly
Got a girl here tonight
Want someone new, someone new
But a little cry wants someone badly
Wanna know if this is a bad lease on me
I want to know
Am I sure that I heard you right
I want to know
If you're leaving just do it tonight
Now I want someone badly
To burn in here with me
You better listen, baby
'Cause I, I cry all over madly
Don't do anything do it with me
Ooh, I want to know
Am I sure that I have your love
I want to know
If you're leaving just make sure it's right
Now I, I want someone badly
Could it be true
That someone is you
