

Sordid

Aura Noir

Intoxicate yourself
Be drunken without cease
Remembrance drifts in the frozen wind
The slave of hunger, now enjoy being freeSordid grace
In a torn soul
Burns the soil
Expanding voidFierce flesh left to boil
On the bones of my deliverance
Stench travels, crawls with the flame
Echoing through my mortal shameAll the pleasures I might have
Sealed as sparks in a dark gem
Unleashed as rage
Reborn as scorching flamesEyes inflame the night
Eyes penetrate the light
Behold new forms of lifeSordid grace
In a torn soul
Burns the soil
Expanding void
