

# Collapsing (feat. Björk "Speed" Strid)

## Demon Hunter

I, I see the weight of hollow death residing in you  
Take now your final breath, exhale the truth  
I see the fear of nothing left, dead fragments of youth  
You hold it in yourself, I feel it too I mourn your blindness  
I die along  
And swallow darkness  
In misery is where I belong Collapsing in on yourself  
I don't know why I try  
(I try)  
Collapsing in on yourself  
I don't know why you deny I, I know the light is burning dim and dying in you  
I know the pain that lies within, I feel it too I mourn your blindness  
I die along  
And swallow darkness  
In misery is where I belong Collapsing in on yourself  
I don't know why I try  
(I try)  
Collapsing in on yourself  
I don't know why you deny  
[Incomprehensible] Collapsing in on yourself  
I don't know why I try  
(I try)  
Collapsing in on yourself  
I don't know why you deny Collapsing in on yourself  
I don't know why I try  
(I try)  
Collapsing in on yourself  
I don't know why you deny
