

Liquid Love (Maor Levi Club Mix)

Above & Beyond

I wait for you my love
I ache for you my love
Call this a liquid love
Rain down on me(You should have come over)Your love slips through my hands
These streets like sinking sand
Drowning in liquid love
Rain down on meI call out your name (You should have come over)
Your love is chasing through my veins (You should have come over)
Such a foolish game (You should have come over)
Your love's no good for me, good for me
But it makes me happy(Makes me happy)I wait for you my love
I ache for you my love
Call this a liquid love
Rain down on meI call out your name (You should have come over)
Your love is chasing through my veins (You should have come over)
Such a foolish game (You should have come over)
Your love's no good for me, good for me
But it makes me happy
