

Smiling (Instrumental)

Lady Wray

Remember when we were young and free?

Simple games like hide and seek

We used to laugh even through the pain

Will we ever get back to the way things used to be? Just keep on smiling Show me all your teeth, please don't
hide your face

Even when you're losing the race

Momma said there'll be days like these

There'll be ups and downs swing you 'round in place

Just keep on smiling
