

Cold in California

Cam

Wouldn't hold you back
No, I never would do that
That don't mean I wanted you to go
Playing dives on weekends
Was a slow ride to a dead end
You're headed west to find your pot of gold

And I hope you do
But if you don't

If you're feeling cold in California
Those L.A. stars just don't shine bright enough for you
Just go back home, ...
I still remember how I used to hold you
If you're cold in California

Down in the gray
... back to standing
I'll be finding myself in love again
I've got a soft spot for those
With the wind in their souls
Ain't it funny what I love's what made you go?

I don't blame you
And I wouldn't change it

If you're feeling cold in California
Those L.A. stars just don't shine bright enough for you
Just go back home, ...
I still remember how I used to hold you
If you're cold in California

Cold in California
Cold in California
Cold in California
Cold in California

If you're feeling cold in California (Cold in California)
Those L.A. stars just don't shine bright enough for you (Cold in California)
Just go back home, ...

I still remember how I used to hold you
If you're cold in California
