

My World Storm

Gary Numan

This is new vengeance.I like noise
I suck art
I like romance when it's in my car.
This is new vengeance.I like games
I like you
I like pressure if it hurts them too.
This is new vengeance.I'll do it, I can do it
I'll take it, if I want it
I'll say it, if I feel it
I'll have it, if I need itSold out
No shit
Don't need approval and I don't need this.
This is new vengeance.I like cars
I like fame
I like people when they call my name.
This is new vengeance.I'll burn your picture
I'll burn your house down
I'll change your world then
I'll listen to reason.
