# Exaltation

## KEVIN WOOD

Heavens rejoice and the earth will exalt
Oh no, come swing back like a catapult
The sea and its fullness will roar
He is our help and our shield our soul yearns for the lord
Burning G-d of Yaacov everlasting stronghold
Break down the door I can't hold back no more
Wait all night long, until the early morning
Like night watchmen wait for the dawning
Exaltation, my G-d of salvation
The field and there in will be filled with jubilation
The Lord's name will be proclaimed
Exaltation, my G-d of salvation
The field and there in will be filled with jubilation
The Lord's name will be proclaimed
Arise, be our help
Place my trust in your kindness
It's a must hoping in the G-d of deliverance
Since way back when before time began
Existing eternally, everlasting
Rejoice in the name of his majesty so we sing
Exaltation, my G-d of salvation
The field and there in will be filled with jubilation
The Lord's name will be proclaimed

Exaltation, my G-d of salvation
The field and there in will be filled with jubilation
The Lord's name will be proclaimed
Chant sweet melodies, utter hymns
And sing praise to the king for he's alone exalted holy
Performing mighty deeds and making new things
Sowing righteousness and creating healing
He spoke, the world came into being
Master of praise, renews each day
Redeems and saves, continuously blessed is his name
Making great lights, creating luminaries, abounding in mercy
Won't you grant me? Understanding to perceive all the teachings
In your Torah of love, existing eternally, lead me
Exaltation, my G-d of salvation
The field and there in will be filled with jubilation

The Lord's name will be proclaimed
Exaltation, my G-d of salvation
The field and there in will be filled with jubilation
The Lord's name will be proclaimed
Chant sweet melodies, utter hymns
And sing praise to the king his majesty
