

# Undefeated

## Daughtry

Swing left, swing right  
Bruised and black-eyed  
Half a life  
Bleeding, choking but not broken  
Inside And in this world of compromise  
I hit every curb, every red light  
Trying to keep both hands on the wheel  
But through it all I'm Still undefeated  
With my back against the ropes  
Still undefeated  
You can knock me down with mighty blows  
But you cannot break my hope Weak knees, can't stand  
Raise up your hands  
Don't walk away  
Been sucker punched but I'm not down  
My feet have never left the ground  
It's a fight that I can't fix  
Like a cut that needs a stitch  
And somehow through it all I stay Still undefeated  
With my back against the ropes  
Still undefeated  
You can knock me down with mighty blows  
But you cannot break my hope  
Cannot break my hope  
Cannot break my hope, yeah We're the ones who take the beating  
Get back up and we're still breathing  
We are the ones  
We'll take the hit straight to the face  
And never look the other way  
We are the ones Still undefeated  
With our back against the ropes  
We're still undefeated  
We'll break these chains  
To let them know they  
Cannot break our hope They cannot break our hope  
They cannot break our  
They can break us down  
But they can't break our hope
