

Forever One

Gowan

(Lawrence Gowan)

Raise your hands

Lift up my soul

Through your eyes

Envision my dreams

Cast your light

I will follow

For night has fallen

The demon lurks

Before I fall victim

I cling to these words

Forever one

And ever strong at my shoulder

Forever one

And sure as hard winds blow colder

We'll go on

Break the fear

Of tomorrow

Drown the past

In these waters

Trust today

To another

For nothing matters

As much as this

The fire surrounds us

And all that there is

Forever one

And ever strong at my shoulder

Forever one

And sure as hard winds blow colder

We'll go on

Forever one

For nothing matters

As much as this

The fire surrounds us

And all that there is

Forever one

And ever strong at my shoulder

Forever one

And sure as hard winds blow colder
We'll go on (we'll go on)
 Forever one
And ever strong at my shoulder
 Forever one
And sure as hard winds blow colder
 We'll go on
The fire surround us and all that there is
 Forever one
And ever strong at my shoulder
 Forever one
And sure as hard winds blow colder
 We'll go on (we'll go on)
