Say What You Want

Samantha Fox

Say what you want
Say what you need now
Name your desire
Say what you need nowIn the times of trouble
When you think you can't last
Think ahead now and not of the past
Put your arms around me
Squeeze me strong, oh yeah, oh yeahBut can we last that long
It's all I ever needed
All along and now
I know, I'm not to worryI've gotta be strong
Lift my head up high
Till I touch the sky
I feel high, I feel high
And I say what I wantSay what you want
Say what you need now
Name your desire
Say what you mean nowWhat you want
Say what you need now
Name your desire
Say what you mean nowSo hold me closer
Can't you feel I'm burning up
Inside forever, I'll lick the last drop
Feel the passion in my body
Tonight, tonight, I'm your wild kind of loveSay what you need now, need now
Name your desire, say your desire
Say what you mean now
Say what you need now, need now
Name your desire, say what you mean nowSay what you want
Say what you need now
Name your desire
Say what you mean now
