In the Morning

Cody Hicks

Friday night,third of july,gonna call it an early night,tomorrow's gonna be one hell of a long day.
I get up,get ready,throw my ax in the back,climb up in my buddy's chevy,summer heat beatin beatin on me,were headed to the lakeside sippin on a drink,
,i pull up with my shades down,checkin out them girls all around,where i come from,this is how we throw it down
Chorus
Ooh yeah fourth of july,were gonna drink all day and party all night
Yeah were out in the water with our hands up high,singing if your gonna roll with us it comes with a warning,
You cant drink all day if you dont start,in the morning
Hey girl dont know about you,wanna hit that water and cruise,kick back on this pontoon,nothing to do except sippin with you,on the shore fires heat heatin up,sit by me and let me fill that cup,no slowing down where i come from,its been a long day but the nights still young like
CHORUS
If you dont start in the morning,if you don't, if you dont start,your holding off with a bloody mary,couple of beers youll be feeling like hell yeah,right around twelve o clock,find a bottle of whiskey and twist off the top,we pregame harder than you party,if you roll with us it comes with a warning
Chorus
Ooh yeah fourth of july,were gonna drink all day and party all night
Yeah were underneath these stars with our hands up high,singing if you roll with us it comes with a warning,
You cant drink all day if you dont start,in the morning
In the morning,if you dont start in morning,if you dont start in the morning ,if you dont start in the morning,if you dont.
