Found Love

Blaze

I found true love
One worth me waiting for
I found true love
One worth me waiting for
I'm gonna sign her to a contract
And won't find one with flaws

It's hard to believe
The condition the world is in
It's hard to believe
The condition the world is in
You can't trust nobody
Girl you know it's a sin

It's hard to believe
The condition the world is in
It's hard to believe
The condition the world is in
You can't trust nobody
Girl you know it's a sin

I found true love
One worth me waiting for
I found true love
One worth me waiting for
I'm gonna sign her to a contract
And won't find one with flaws
