

# I Can Talk

## Glassnotemusic

You won't believe what I tell you  
White coats and clever minds will choose  
You get a lot from this loose tongue and arrogance  
It's not appropriate, don't think that this is it  
Now I can talk, no one gets off  
I know how you like to  
Now I can talk, no one gets off  
Now I can talk, no one gets off  
I know how you like to  
Now I can talk, no one gets off  
A longer sentence brings no more  
Than one that I had said before  
It's hard to compromise when I see through your eyes  
It's just a common view, I guess it's lost on you  
Now I can talk, no one gets off  
I know how you like to  
Now I can talk, no one gets off  
Now I can talk, no one gets off  
I know how you like to  
Now I can talk, no one gets off  
Now I can talk, no one gets off  
I know how you like to  
Now I can talk, no one gets off  
Now I can talk, no one gets off  
I know how you like to  
Now I can talk, no one gets off
