We Were Young

DVBBS

We were young
We were dumb
We would do it all again

We will never sleep
We will stay up with our friends

Where we go
We donâ€™t know
Where we go
We donâ€™t know

These memories will fade
But weâ€™ll do it again
We were high on youth
Searching for our happy end

Where we go
We donâ€™t know
Where we go
We donâ€™t know

We were young, we were young, we were young
We were young, we were young, we were young
We were young, we were young, we were young...
We were young
We were dumb

We were young
We were dumb
We would do it all again

We will never sleep
We will stay up with our friends

Where we go
We donâ€™t know
Where we go
We donâ€™t know

These memories will fade
But weâ€™ll do it again
We were high on youth
Searching for our happy end

Where we go
We donâ€™t know
Where we go
We donâ€™t know

We were young
We were dumb
We would do it all again

We will never sleep
We will stay up with our friends

Where we go
We donâ€™t know
Where we go
We donâ€™t know

We were young, we were young, we were young
We were young, we were young, we were young
We were young, we were young, we were young...
We were young
We were dumb
