

Hope Song

Rock Kills Kid

The rain drops, pour off the roof again
They fall down, down, down upon me
I wont let it get me down
Theres something for me here
Im gonna give it one more tryBecause I gave it all away
And I'm still standing
Threw my world away
I'm still standing
And I gave it all away
And Im still standingIn the sky I feel, I feel disaster
Coming towards me
I wont let it get me down
Theres so much life to live
Im gonna give it one more tryBecause I gave it all away
And Im still standing
Threw my world away
Im still standing
And I gave it all away
Im still standingThe rain drops fall downBecause I gave it all away
And I'm still standing
Threw my world away
And Im still standingSing me a hope song
And I'll sing with you
Cause I gave it all away
And Im still standingI gave it all away
I gave it all away
I gave it all away
I gave it all away
