

Know

System Of A Down

I will never feed off the evergreen luster of your heart,
All because we all live in the valley of the walls,
When they speak we can peak from the windows of their mouths,
To see the land the women chant as they fly up to the sun. You never think you know,
Know, you never think you know,
Know, ever think you know why, Books all say different things while people flap their yellow wings,
Trying to soar, being a whore of life and almost everything,
Sheep that ran off from the herd, maybe dead,
Now's a bird, able to fly, able to die, able to fuck your mother's earth.
You never think you know,
Know, you never think you know,
Know, ever think you know why, On the other side, the other side,
The other side. Do you ever try to fly, do you ever try to fly?
Have you ever wanted to die, have you ever want to die?
Don't ever try to fly, don't ever try to fly,
Don't ever try to fly, unless you leave your body on the other side,
Never try to die, you ever try to die.
Know, you never think you know why,
Know, you never think you know why,
Know, you never think you know why,
Know, ever think you know why,
