

# You Need Me

## Laurindo Almeida

(Clarence Paul)

When day is done and you come home  
You shouldn't spend your nights alone  
    That's when you need me baby  
To always know that someone cares  
And love like mine should be shared  
    We'll see you'll need me baby  
We'll build up dreams and memories  
    And maybe raise a family  
So give your love to one who yearns  
    I'll promise true love in return  
    How can you be so blind  
    Can't you see you need me  
    If you should disappoint me  
        And refuse my love  
    I know my heart would die  
'Cause you are my reason for living

My heart and soul I'm giving  
    Darling hear my cry  
    You need me  
To me my love's sacred thrill  
It's all for you and you alone  
    You see you need me baby  
Though you may find another who  
Might take your love and be untrue  
    You see you need me baby  
Have you experienced in the past  
One sided love affairs don't last  
    No need to take a chance at all  
When I'm just waiting for your call  
    How can you be so blind  
    Can't you see you need me  
    You need me, you need me
