

I Gotchoo

Bowling For Soup

Waves hit rocks and folks get wet
I was gonna say something but now I forget
Chocolate covered cherries with the milk on the side
I'll meet you at the party if I find a ride Helicopters fly and birds like to nest
Elvis or The Beatles, who care's who's the best
Raleigh is the capital of North Carolina
Peanut butter sandwich with some Aunt Jemima And if you were me you'd probably see what I'm talking
about Talk is cheap but I can't afford it
And counting sheep don't work anymore
My head is turning in circles but I gotchoo, I gotchoo The coast is clear, the view is distorted
Lots to do and I'm always bored
Nothin' in my wallet but I gotchoo, I gotchoo Credit or debit with your supermarket basket
Bring your own dope, no paper or plastic
In the sun or the rain always bring an umbrella
Get a lollipop from the pretty bank teller Go kart track with a '57 Chevy
I carry my weight for I'm getting kinda heavy
Fuzzy wuzzy was a bear, fuzzy wuzzy had no hair,
Fuzzy wuzzy wasn't fuzzy wuzzy, was he? Was he And if you were me you'd probably see what I'm talking
about Talk is cheap but I can't afford it
And counting sheep don't work anymore
My head is turning in circles but I gotchoo, I gotchoo The coast is clear, the view is distorted
Lots to do and I'm always bored
Nothin' in my wallet but I gotchoo, I gotchoo Sometimes you gotta run and put your foot on the pedal
Other times you gotta stay and bring the metal
Doesn't matter to me 'cause I gotchoo, I gotchoo Talk is cheap but I can't afford it
And counting sheep don't work anymore
My head is turning in circles but I gotchoo, I gotchoo The coast is clear, the view is distorted
Lots to do and I'm always bored
There's nothin' in my wallet but I gotchoo, I gotchoo Talk is cheap but I can't afford it
And counting sheep don't work anymore
My head is turning in circles but I gotchoo, I gotchoo The coast is clear, the view is distorted
Lots to do and I'm always bored
There's nothin' in my wallet but I gotchoo, I gotchoo
