

Gypsy (feat. Ray Wilson)

Armin van Buuren & Ray Wilson

God is my witness I can feel you
There! right before my very eyes, a vision to me
Don't put out this fire
It's burning for
Burning for me, burning for youStand within the sunlight, press against me
Takes me back to other times, different days
Love I do surrender, it belongs to
Belongs to me, belongs to you
Lay down on me, naked gypsy
Watching you bathe in water
False chilhood lies, fear in your eyes
Give me a son and daughterThere is nothing I can't see in my mind
A picture of you printed, so vividly
Blood runs through my fingers
And through
Through my light, through my darknessLay down on me, naked gypsy
Watching you bathe in water
False chilhood lies, fear in your eyes
Give me a son and daughterLay down on me, naked gypsy
Watching you bathe in water
False chilhood lies, fear in your eyes
Give me a son and daughter
Lay down on me, naked gypsy
Watching you bathe in water
False chilhood lies, fear in your eyes
Give me a son and daughter
